

“Smart ideas for sustainable and low-carbon ports”

The SUPAIR Mutual Learning Workshop

Sala Vulcania 1, Maritime Station - Trieste, 13 November 2019

Molo dei Bersaglieri, 3, 34123 Trieste - Italy

Ports are hubs connecting different types of transport systems at global and regional level. However, freight loading and unloading operations and passengers' mobility have significant impact on the environment, especially on air quality, water and noise pollution as well as CO2 emissions. For this reason, ports can act as drivers for the implementation of more efficient and greener transport policies. In particular, **ports can increase their sustainability** by following a methodology that helps them in detecting their environmental impact and identify ways to reduce their carbon and ecological footprint.

The **SUPAIR project engaged and supported 7 ports of the Adriatic-Ionian region** in developing and promoting solutions for a sustainable and low-carbon management of their operations.

The Workshop is the chance to get an insight into the ports performances in terms of sustainability and learn more about the strategies they are adopting to reduce their impact on the environment.

The event is organized together with the **XXIII edition of the ASITA Conference** (Italian Federation of Scientific Associations for Territorial and Environmental Information) that will be held in Trieste on Nov. 12-14, 2019 at the Trieste Maritime Station.

The SUPAIR Workshop will be moderated by Prof. Marco Mazzarino (IUAV).

Programme

TIME	TALK TITLE	SPEAKER
14:00	Participants registration	
14:30	The SUPAIR project	Fabio Tomasi – <i>Area Science Park</i>
14:45	Sustainability: a key element for port development	Guido Vettorel – <i>Port of Ancona</i>
	Port anti-pollution base <i>Prevention and management of natural disasters in the Adriatic Sea</i>	Domenico Guidotti and Centonza Primiano – <i>Guidotti Ships</i>

15:30	Strategies for environmental protection: how to improve energy efficiency in the Port of Venice	Erika Rizzo - <i>North Adriatic Sea Port Authority</i>
15:45	Our Journey on the Waves of Sustainability <i>SUPAIR project: moving forward to drive and align the Port of Trieste' efforts with international and European legislative frameworks</i>	Elisabetta Scala - <i>Port Network Authority of the Eastern Adriatic Sea</i>
16:00	Development of Sustainability in the Port of Koper <i>Achievements and plans</i>	Franka Cepak - <i>Luka Koper</i>
16:15	Green port transformation <i>Improvement of port's efficiency and environmental performance</i>	Rade Stanisic - <i>Port of Bar Holding Company</i>
16:30	Designing a Sustainable Eco- Friendly Port <i>SUPAIR project: an approaching guide to regenerate the port-city link through a sustainable action plan</i>	Serena Kovaçi - <i>Durres Port Authority</i>
16:45	Strengthening the environmental and energy management of a port under development <i>What SUPAIR-ADRION project offered to the Port of Thessaloniki</i>	Alkiviadis Tromaras, on behalf of Eva Vafaki - <i>Thessaloniki Port Authority SA</i>
17:00	Transforming the Port of Piraeus into a next generation port with advanced environmental measures	Chryssanthi Kontogiorgi - <i>Piraeus Port Authority SA</i>
17:30	The Transnational Cooperation Network of Adriatic-Ionian sustainable and low-carbon Ports	Lefteris Sdoukopoulos and Maria Boile - <i>Centre for Research and Technology Hellas</i>
18:10	Final debate	
18:30	End of the Workshop	Marco Mazzarino – <i>IUAV</i>
	Networking cocktail together with the ASITA Conference	

Useful information

How to reach the venue?

The SUPAIR Mutual Learning Workshop will take place at the **Trieste Maritime Station**, located just a few meters from the City main square (Piazza Unità d'Italia)

Trieste Maritime Station *Molo Bersaglieri, 3 - Trieste*

GETTING THERE

From the Train Station

From Trieste Central Railway Station (800m), you can enjoy a walk along the sea or take bus n. 8 or n. 30. The stop is in front of the Stazione Marittima Conference Hall.

From the motorway

From the A4 Venice / Trieste Highway take the 'Sistiana / Trieste Centro' exit and follow the directions to the center of Trieste. Once on the seafront, you will see the Stazione Marittima Conference Hall near Piazza Unità D'Italia.

From the airport

From Ronchi dei Legionari airport (35km) take the coach n. 51 to Trieste; you will stop at the Coach Station. Alternatively, you can take a train from [Trieste Airport Railway Station](#) that gets you into the Central Railway Station. From both Coach and Railway Station you can walk along the sea or take bus n. 8 or n. 30, the stop is in front of the Stazione Marittima Conference Hall.

From Venice airport (150km) take the A4 Venice / Trieste Highway and follow the indication above. Alternatively, you can take the [ACTV](#) line 15 bus or the [ATVO FLY BUS](#) shuttle to Venezia Mestre railway station, then take a [train](#) to Trieste Central railway station. The journey with public transport lasts about 2 hours and a half.

From Lubiana airport (115km) you can reach Trieste using the [GoOpti transfer](#). The journey lasts about 1 hour and a half.
